

My Living Legacy interactive CD-Rom will walk you through the steps and considerations needed in successfully creating a video life history. The CD-Rom is organized into 5 main sections that present a plethora of information to you effectively and efficiently. We have thought through the entire process from managing your project expenses to rental and travel considerations. Along the way you will encounter inspirational stories included to bring fourth creative ideas and thoughts. As you walk through the process you will wonder why everyone is not creating a video life history and Genealogy. With the assistance of this CD-Rom and your imagination, there will be no limits to the legacy you will create for generations to view. Please review the table of contents below and the sample images to get an idea of the rich content we provide for creating your video biography and video genealogy.
